CUPRA

MY26 Pre-Launch

# DRIVEN BY PASSION

Today it seems like we're always told to be careful, to leave emotion out of it and make sensible decisions. But while there's a place for logic and rationale, life is pale without passion, without emotion, without a healthy dose of reckless, limit-pushing impulsiveness.

This is what drove us to bring the ultimate expression of a combustion performance car to life again, and make sure it came to Australian enthusiasts. Not because of how the numbers stacked up, but because we'd be living life at a much lower volume without it, and that's not who we are.

If this resonates with you, if there's a little streak of loca or loco pumping in your veins, then maybe we might have even more in common.

Your move.

### BRACE FOR IMPACT

CUPRA is once again pushing the boundaries of performance and design with our most iconic combustion vehicle, now coming to Australia for the first time: the New CUPRA Formentor VZ5.

Since its original global debut, the CUPRA Formentor VZ5 has stood as a symbol of the brand's rebellious spirit and engineering prowess. This re-introduction is more than a refresh – it's a reaffirmation of CUPRA's belief in the emotional power of driving. With its distinctive five-cylinder rhythm and sculpted design, the VZ5 is a testament to what is possible when passion is in the drivers' seat.

Designed, developed and built in Barcelona, the VZ5 will be limited to just 4,000 units globally.

### UNIQUE ELEMENTS

Under the bonnet is our iconic 2.5L five-cylinder turbo petrol engine, delivering 287kW and 480Nm of torque, and re-calibrated to deliver an even more emotive experience. Paired with a seven-speed DSG dual-clutch transmission and CUPRA's 4Drive all-wheel drive system, plus integrated torque vectoring technology, the VZ5 offers precise power distribution across all four wheels, including lateral torque control for enhanced cornering stability.

This new edition introduces bold exterior design elements, including a distinctive carbon fibre front splitter with engraved VZ5 logo, wider wheel arches to cover the specific VZ5 20" copper alloys, plus an exclusive rear bumper with carbon fibre insert and diffuser to cover the copper-tipped quad exhausts, providing even greater presence on the road.

## IMPORTANT NOTE REGARDING PRE-LAUNCH INFORMATION

This brochure is made available during the pre-launch phase of the New CUPRA Formentor VZ5, prior to arrival of Australian vehicles. As such, the content of this brochure is subject to change / final confirmation. Please re-confirm any areas of importance with your CUPRA Agent.

[3] The figures stated are for the purposes of comparison amongst vehicles tested under the same testing procedures only. The actual figure may vary depending on multiple factors such as fuel quality, vehicle load, environmental and road conditions.

[5] Fuel consumption figures according to Australia Design Rule (ADR) 81/02 derived from laboratory testing. Factors including but not limited to driving style, road and traffic conditions, environmental influences, vehicle condition, and accessories fitted, will in practice in the real-world lead to figures, which generally differ, from those advertised. Advertised figures are meant for comparison amongst vehicles only.

[8] Compatibility will vary by device.

[9] App-Connect featuring wireless Apple CarPlay® and wireless Android Auto™ is compatible with the latest versions of iOS and Android. Active data service required.

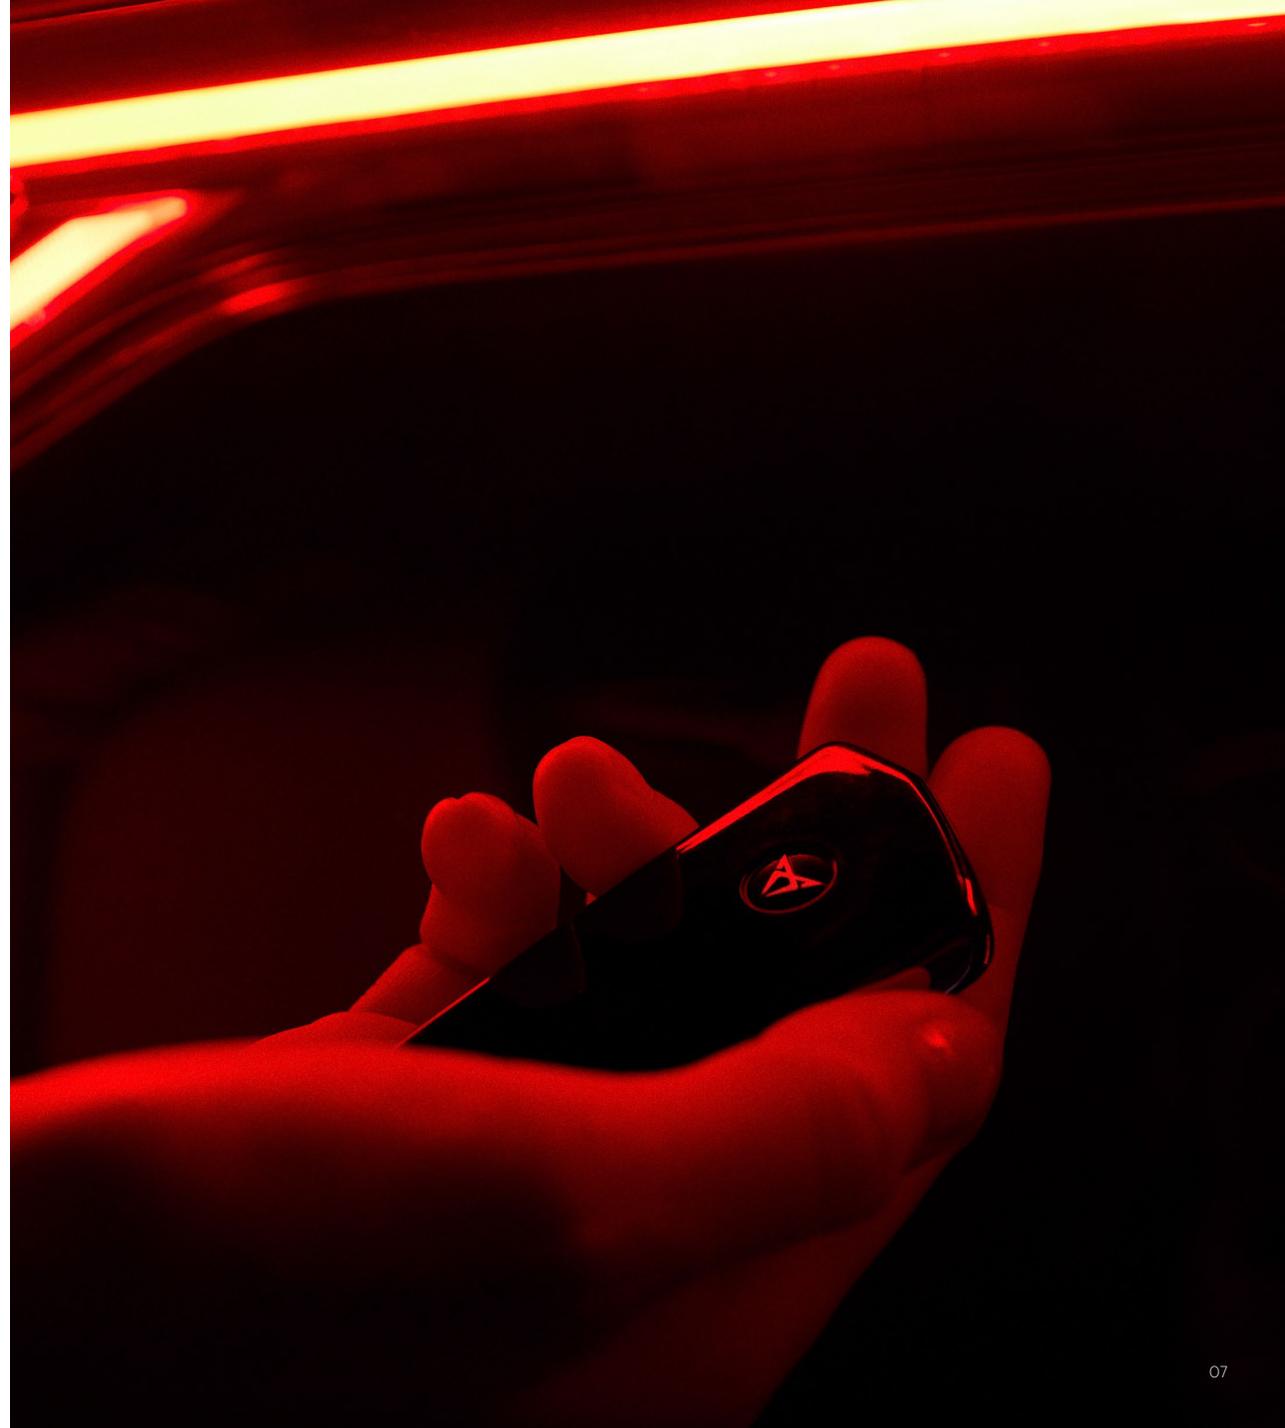

[11] Safety / Driver assist technologies are designed to assist the driver but should not be used as a substitute for safe driving practices.

CUPRA is committed to a policy of continuous product development and reserves the right to make changes to specifications, colours and prices without notice. The information in this brochure can therefore be given as guidance only. While CUPRA makes every effort to ensure that specifications are accurate at the time of publication, you should always check with your authorised CUPRA Partner for the latest information. Due to limitations of the reproduction process the colours displayed in this brochure may vary slightly from the actual paint and material colour.
