INSPIRING THE WORLD FROM BARCELONA

CUPRA (short for CUP RAcing) emerged in the 1980's through the motorsport division of Spanish brand SEAT, which competed successfully in World Rally and World Touring Car Championships. The CUPRA nameplate first began appearing in 1996 on selected performance models before growing in popularity such that in 2018 CUPRA became a stand-alone brand with dedicated variants of the Leon and Ateca, and ongoing success in a variety of motorsport categories. Soon thereafter, CUPRA-unique models were launched including the Formentor, Born, Tavascan, Terramar and soon the Raval, with worldwide sales surpassing one million vehicles in 2025.

As a proud member of the Volkswagen family alongside brands such as Porsche, Lamborghini, Audi and Skoda; CUPRA fuses the latest German engineering with edgy Spanish design and engaging dynamics to create vehicles that deliver an irrepressible impulse while driving, and a yearning to look back as you walk away.

In Australia, CUPRA launched in 2022 with unique Sales and Service 'Garages' in key hubs around the country. In a short space of time our Tribe has grown to over 10,000 obsessive enthusiasts who value the journey as much as the destination, and for whom blending-in just isn't in their DNA.

If this resonates with you, maybe you have a little bit of Spanish in you.

Maybe you're One Of Us.

Find out more.

CUPRA Tindaya concept model shown

DEFY ORDINARY

Rebellion is not conformity; it's the art of defying the ordinary.

Welcome to the home of the audacious where the norm is challenged and the extraordinary is embraced. The CUPRA Tavascan experience isn't just about acquiring a car, its's about adopting a way of living ignited by electric passion. We invite you to join this evolution where motion is the experience and driving immersion is redefined.

The CUPRA Tavascan sets out to be a rebel amongst the ordinary. If you resonate with rebellion, then you're part of our tribe.

Don't react to change, create the change! Vamos!

WHAT'S IN A NAME?

Designed and developed in Barcelona, Tavascan's namesake is a village in the heart of the Spanish Pyrenees that shares its passion for electrification, raw materials and sustainability.

The village of Tavascan is geared towards the generation of green energy being home to one of the most unconventional hydroelectric power plants in the territory, located five hundred metres deep inside a mountain and with one of the most important waterfalls in Europe.

The design team was deeply inspired by how the village seeks to travel alongside nature not only in its power generation, but also how it aligns with the surrounding natural environment, including earthy stone walls and wooden roofs.

"We wanted to give our first all-electric SUV genuine integrity, with raw materials, colours, textures and graphic elements that grant it sophistication in tune with nature."
- Francesca Sangalli, head of CUPRA Colour & Trim

DESIGN

In a world where being a dreamer means being one of the few, beauty finds its true meaning. There you will find us thriving, because we know that there is no result without process, no reward without sacrifice. We are the architects of change, rearranging the pieces, forging new paths, pursuing excellence and revealing a greater truth. We have produced a masterpiece of effort that exhibits pure, authentic beauty: our CUPRA Tavascan.

Tavascan VZ model shown in Century Bronze Matte

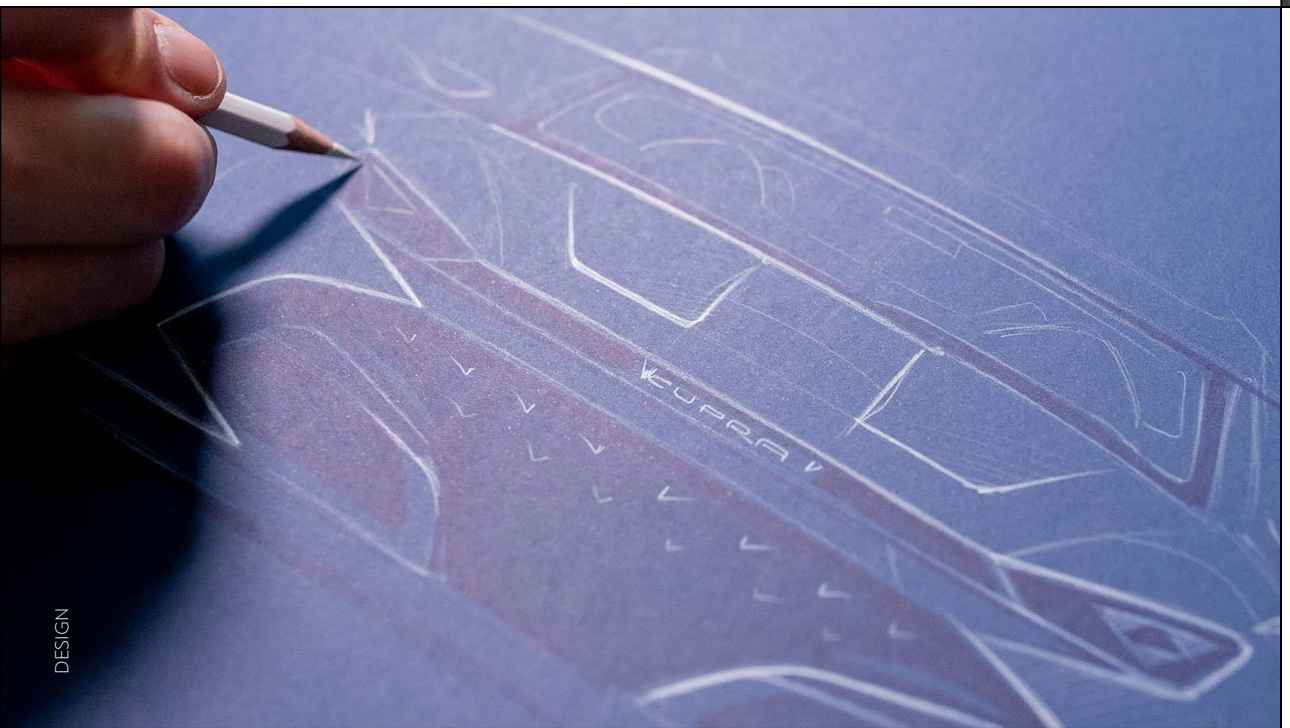

EXTERIOR DESIGN

REBELLION IS THE ART OF DEFYING THE ORDINARY

Every new CUPRA model begins with an exercise in creativity by our designers. There are no limits. It has to stand out, catch you off guard, and lead the way for the brand's future design.

Tavascan was our dream and is the first hero of a new era for the CUPRA brand; Its unique design philosophy brought forth a sleek, streamlined exterior with progressive interior elements, the like of which has rarely been seen outside of fantasy.

WE'D RATHER BE LOVED BY A FEW, THAN LIKED BY MANY

When the CUPRA design team began to sketch the outlines of a new electric SUV coupe proposal, they knew that some people would think it was too much.

"When you want to create something unique, when you want to create a strong personality, you can't please everyone. That would mean losing your identity. And that's not what we do at CUPRA. As designers, we're obliged to push the boundaries without thinking about what people might say, to follow our own way. That's exactly what we did with the CUPRA Tavascan. It's not a response to change; it's the vehicle that creates it."
- Jorge Diez, CUPRA Design Director

Tavascan VZ models shown

UNCONVENTIONAL STYLE

As you sweep your eyes down the side of the CUPRA Tavascan, its athleticism and sporty proportions come into view; a design that emphasises the all-electric SUV coupe's performance and the sensation of speed. This sensation is achieved through a design language that stretches the surface muscles in a wedge directly from the 'shark nose' front to the tailgate.

CAPTIVATING FRONT LIGHTS

The eye-catching CUPRA Tavascan front mask heralds an exciting era of design, marrying identity and illumination, with deep sculptural surfaces and recessed bonnet scoops married to a dynamic lighting scheme that includes triangle-eye DRL's and the CUPRA logo shining forth, signaling a visually captivating arrival.

Tavascan VZ models shown

COAST-TO-COAST ILLUMINATION

Flowing from end to end is the Tavascan coast-to-coast rear lighting, a continuous gleam that weaves elegance with a glowing central CUPRA logo and multi-layer brake lights, making your presence undeniable. The Tavascan name shines intently in the side lights, rewarding those who seek out intricate details.

THE CORE OF THE EXTERNAL EXPERIENCE

"We wanted the car to look alive. To do so, we placed the logo in the centre of the coast-to-coast taillight. It's the heart of the CUPRA Tavascan. When the car turns on, the light expands from the logo, extending towards the corners. It's like blood being pumped by the heart, a metaphor of being alive."
- Julio Lozano, CUPRA Head of Exterior Design

Tavascan VZ models shown

INTERIOR DESIGN

WE ARE THE ARCHITECTS OF CHANGE

If the exterior of the CUPRA Tavascan sought to evolve the brand's future design, its interior is even more revolutionary.

The sculptured exterior lines of the Tavascan are brought inside the car to create a space that mixes material and technological concepts to create a cabin that provides the perfect balance between driver orientation and passenger comfort.

SPINE TINGLING

The most commanding design cue of Tavascan's interior architecture is the bridged spine that unites the lower and upper dash and defines the character of all the floating elements, while neatly disguising functional components like air vents. It ensures intuitive control and a driving experience that's both powerful and confident.

Overseas Tavascan models shown

EXPERIENTIAL

To create the CUPRA Tavascan's digital ecosystem and cockpit, the CUPRA Design and Development teams worked closely together to seamlessly merge technology and design to create an intuitive, highly customisable user experience. The result is the best user experience yet in a CUPRA.

"The driver is at the centre of everything we design. In this interior you can see how digital and physical interactions go hand in hand for both to deliver the best experience."
- Jaume Sala, CUPRA Head of UX/UI Design

TIME FOR A GLOW UP

Inside the CUPRA Tavascan, adjustable ambient lighting sets a harmonious and technologically savvy scene, strategically placed across the dash and doors to cultivate an immersive driving environment. Select from multiple lighting themes including Liquid and Plasma to brighten your night.

Overseas Tavascan models shown

GO EXTREME

Option-up your Tavascan VZ with the Extreme Package to experience the most brazen level of Tavascan specification available.

21" ETNA FORGED ALLOYS

With forged construction and intricate parametric copper inserts, plus sticky performance tyres for increased grip.

CUP BUCKET FRONT SEATS

Extra snug with increased bolstering for enthusiastic cornering; these racy seats cocoon the driver in Enceladus Grey Nappa leather appointments[7], plus provide cooling ventilation for when things get a little too heated.

Overseas Tavascan models shown with optional Extreme Package

POWER

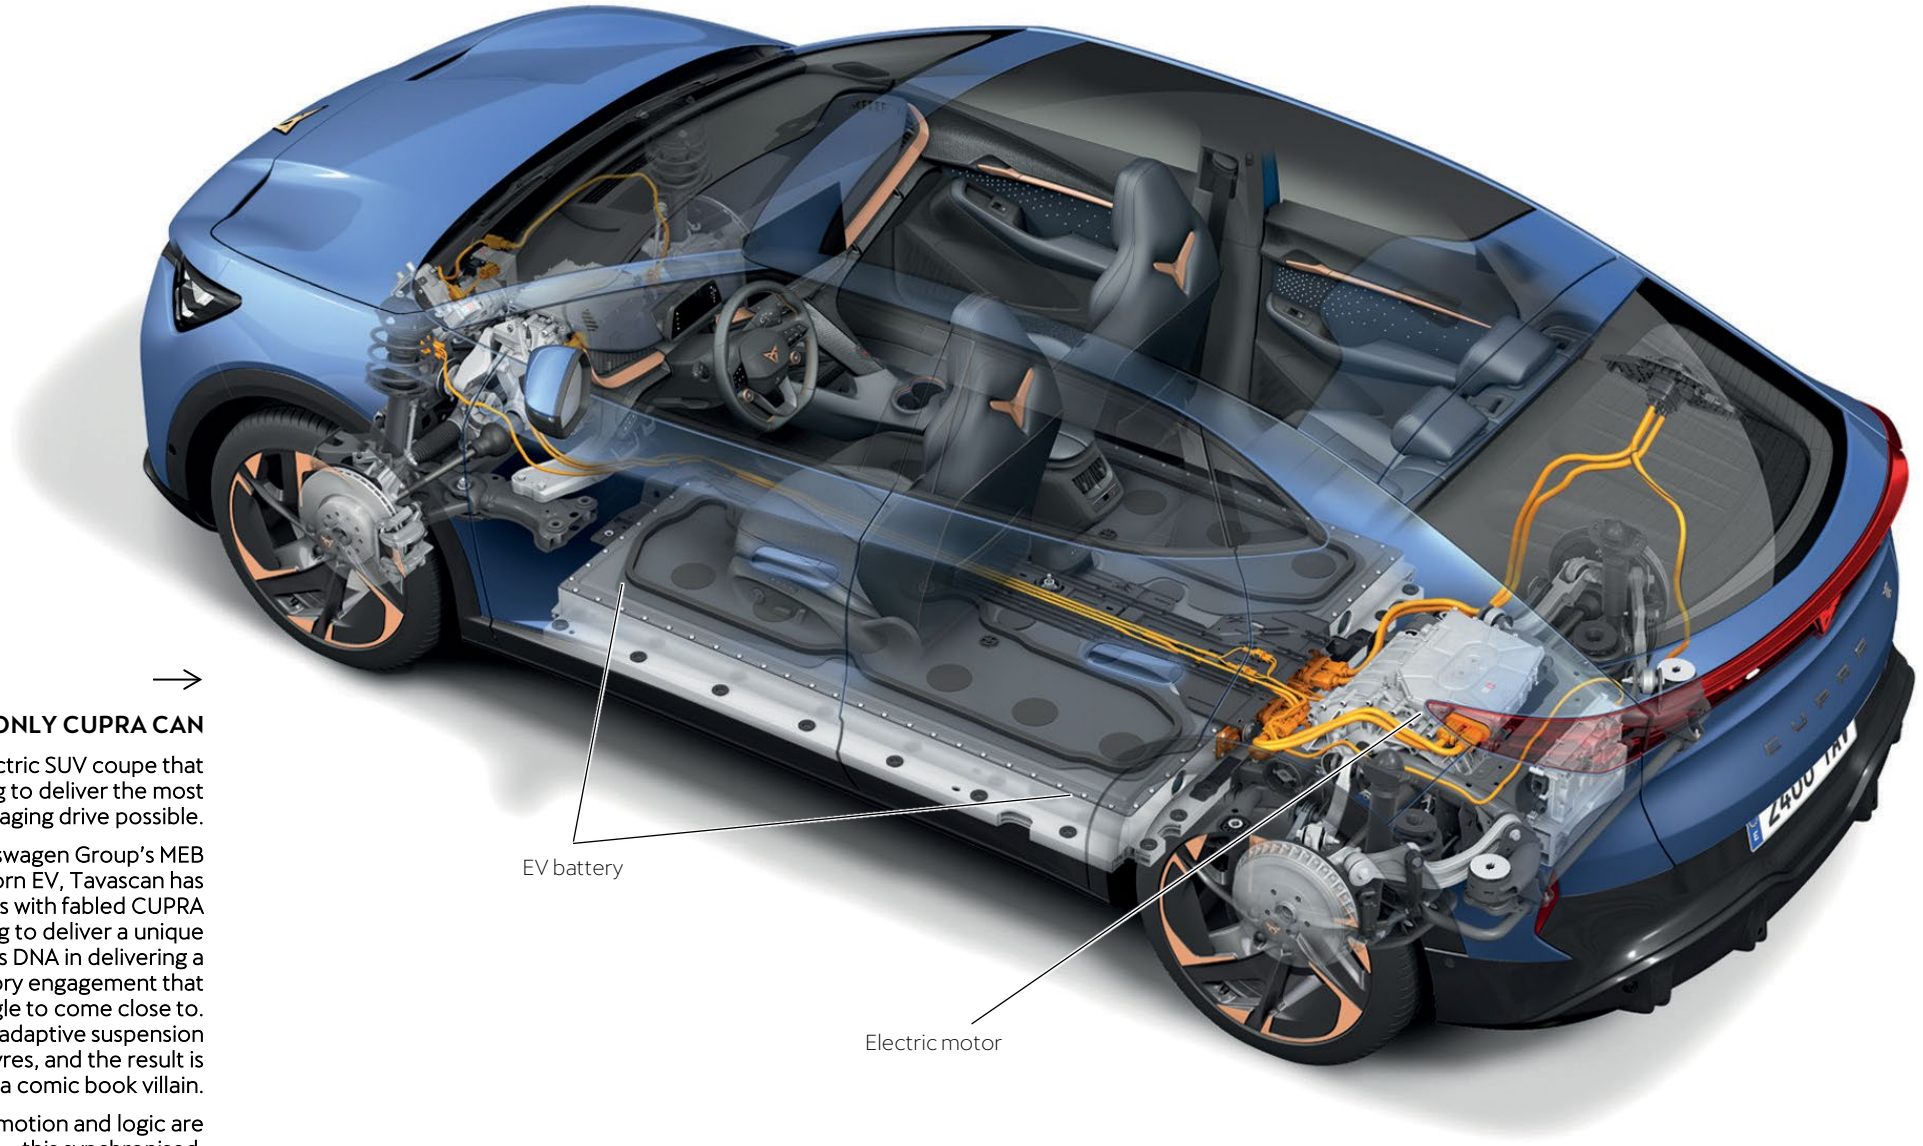

What have we accomplished? We've meticulously assembled the right pieces, fueled by a vision of defying the norm, of turning rebellion into reality, never fully grasping the magnitude of what was to come.

Drive into the realm of electrifying performance with the new CUPRA Tavascan; this isn´t just a car, it's the manifestation of power, speed and innovation. Experience the exhilaration of acceleration, the precision of design and future of driving all in one.

"Join the revolution. Embrace the power. This is more than just driving; this is the future."

Overseas Tavascan model shown

PLATFORM

ELECTRICIFICATION AS ONLY CUPRA CAN

The CUPRA Tavascan brings together a fully electric SUV coupe that merges desirability, acceleration and handling to deliver the most engaging drive possible.

Thanks to the strong underpinnings of the Volkswagen Group's MEB platform and our experience with the CUPRA Born EV, Tavascan has integrated the advanced all-electric systems with fabled CUPRA performance-orientated ride and handling to deliver a unique experience that maintains the brands DNA in delivering a driver's car, but with a level of sensory engagement that many EV's struggle to come close to.
Add to this progressive steering, available DCC adaptive suspension and available forged alloys with performance tyres, and the result is pure enjoyment and a maniacal grin worthy of a comic book villain.

It's a rare moment indeed when emotion and logic are this synchronised.

Prototype Tavascan VZ model shown for illustrative purposes only

DRIVETRAINS

TAVASCAN V

Designed to conquer the suburbs, the Tavascan V has a spritely 140kW being fed to the rear wheels from a 58kWh battery, providing 414km[6] of driving range. Its electric nature provides instantaneous torque to get you off the mark with a sizeable grin.

TAVASCAN ENDURANCE

Traverse further with confidence; Tavascan Endurance's robust 77kWh battery and 210kW rear wheel drive setup invite you to explore an impressive 520km[6] range of dynamic, efficient driving.

TAVASCAN VZ

With its dual-motor all-wheel drive, the Tavascan VZ (which stands for Veloz / Fast) is for those with a penchant for acceleration and surges forth with 250kW of thrust whilst retaining a distinct rear-drive bias, offering unrivalled dynamic performance across an impressive 509km[6] range, or 448km[6] with the road-holding performance tyres equipped on the optional Extreme Package.

CHARGING

CHARGING SOLUTIONS

The CUPRA Tavascan revolutionises urban mobility, granting you the liberty to navigate the metropolis with finesse. Boasting both AC and DC fast charging options, Tavascan invites you to embrace the future of driving with confidence.

TECH & SAFETY

Step into the future. CUPRA Tavascan is a manifesto of future driving, combining innovation and sustainability. Pushing the limits and challenging the norms, this electric experience redefines what it means to drive. From its cutting-edge technology to its futuristic design, every aspect of this car ensures an immersive and comfortable ride.

Tavascan VZ models shown in Tavascan Blue

TECHNOLOGY

MATRIX LED CLARITY

Illuminate your path with the CUPRA Tavascan VZ's Matrix lighting, an intelligent system that cascades high-beam light to dispel the shadows without glaring oncoming drivers, and ensures your journey is bathed in clarity.

LATEST GENERATION INFOTAINMENT

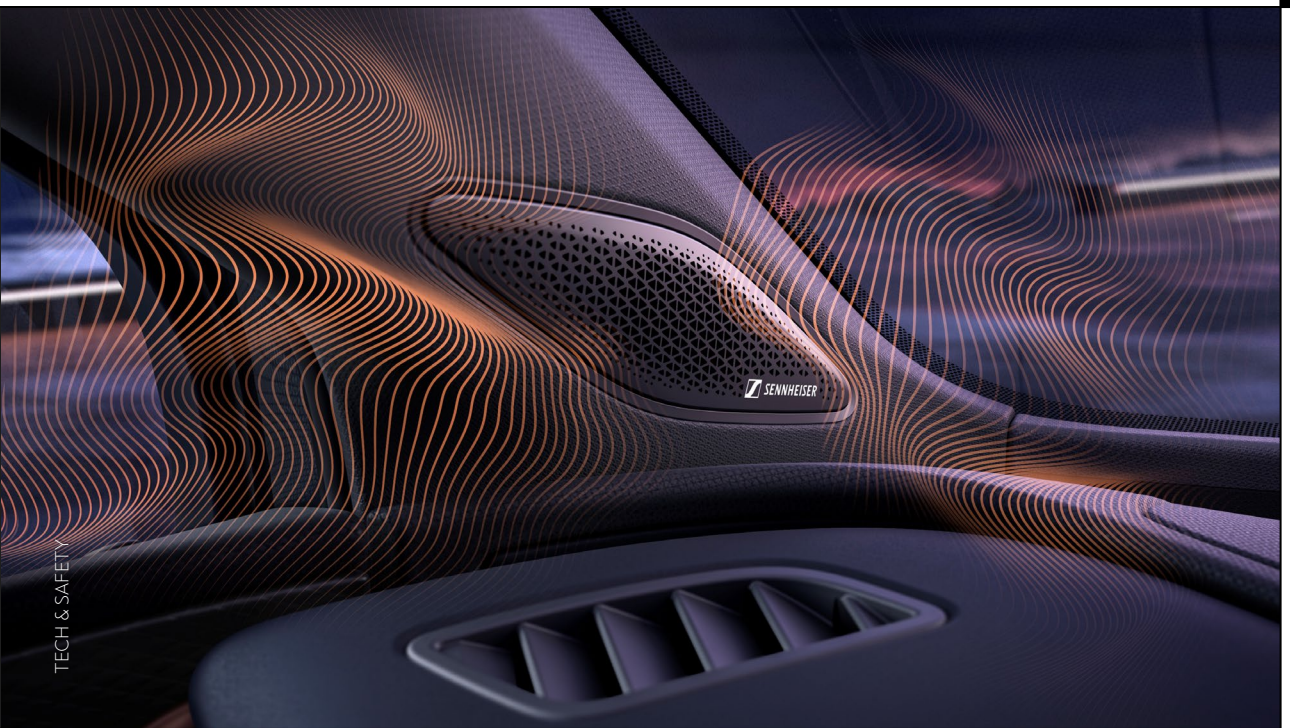

Digital and tactile design merge in a perfect combination of technology and style. The floating 15" infotainment screen - the largest so far in a CUPRA model - sits aligned towards the driver supporting ease of use, while a new human machine interface is significantly more intuitive in providing control over navigation, audio, drive profiles, ambient lighting, 3-zone climate control and phone connections.

Overseas Tavascan models shown

SATELLITE NAVIGATION

Know where you're going and where to visit along the way, with convenient EV-specific features including charging stations and driving range overlay.

IMMERSIVE SENNHEISER PREMIUM AUDIO

Now standard on all Tavascan variants, audio content is redefined thanks to the Tavascan's premium sound system. The 12-speaker system was developed in collaboration with renown audio experts Sennheiser, specialists in high-fidelity equipment, helping to achieve sound quality and integration that reaches new levels of immersion and provides a unique sound experience for the driver and the passengers.

Overseas Tavascan models shown

SMARTLIGHT

Elegant clarity is provided by the Smartlight technology, with illuminated visual cues across the top of the dash for charging, voice control, navigation and various other alerts.

HEATED & VENTILATED FRONT SEATS

Embrace the comfort of heated and ventilated front seats with three levels of heating or cooling to keep you refreshed on every journey.
Front seat heaters are fitted as standard, while front seat ventilation is fitted to the Tavascan VZ with optional Extreme Package.

Overseas Tavascan models shown

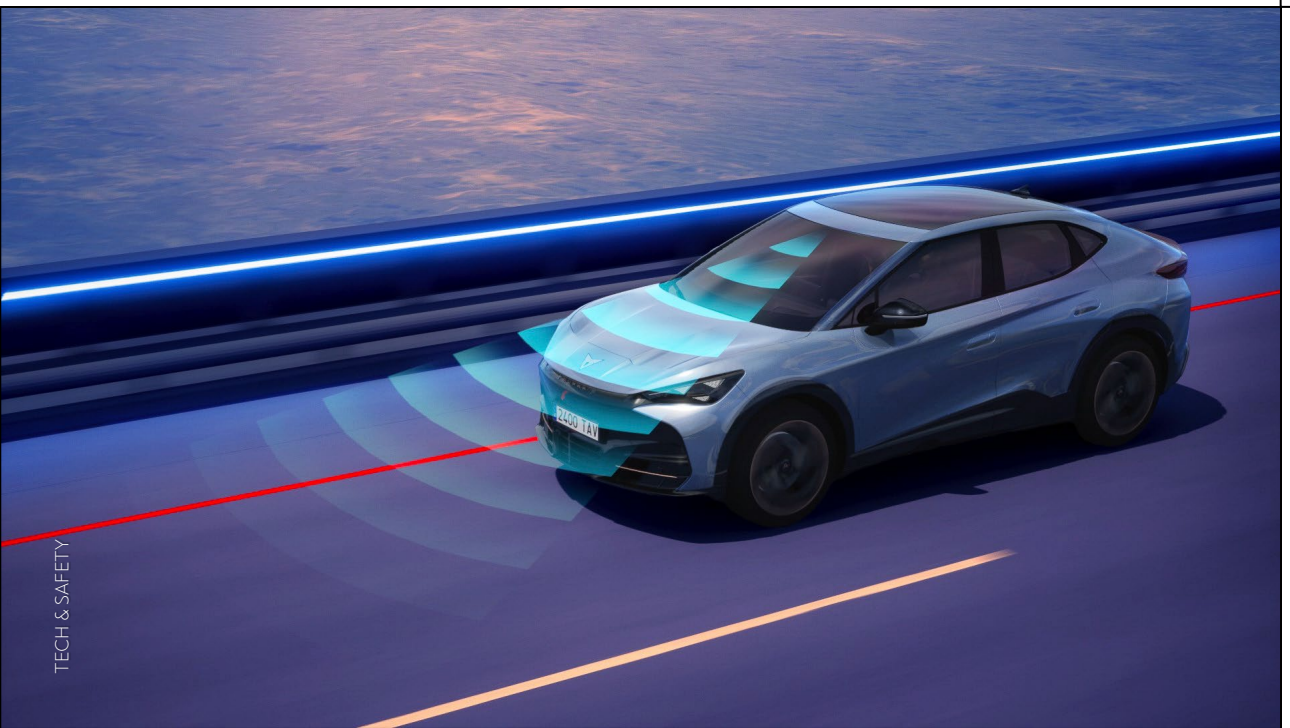

SAFETY

FULL SUITE

CUPRA is fully committed to your wellbeing, that's why the suite of safety and driver-assist systems[11] in the CUPRA Tavascan is as long as your arm, plus someone else's arm too.

A small sample of these include front assist collision warning and braking, speed sign recognition, lane safety, blind spot monitoring and seven airbags.[11]

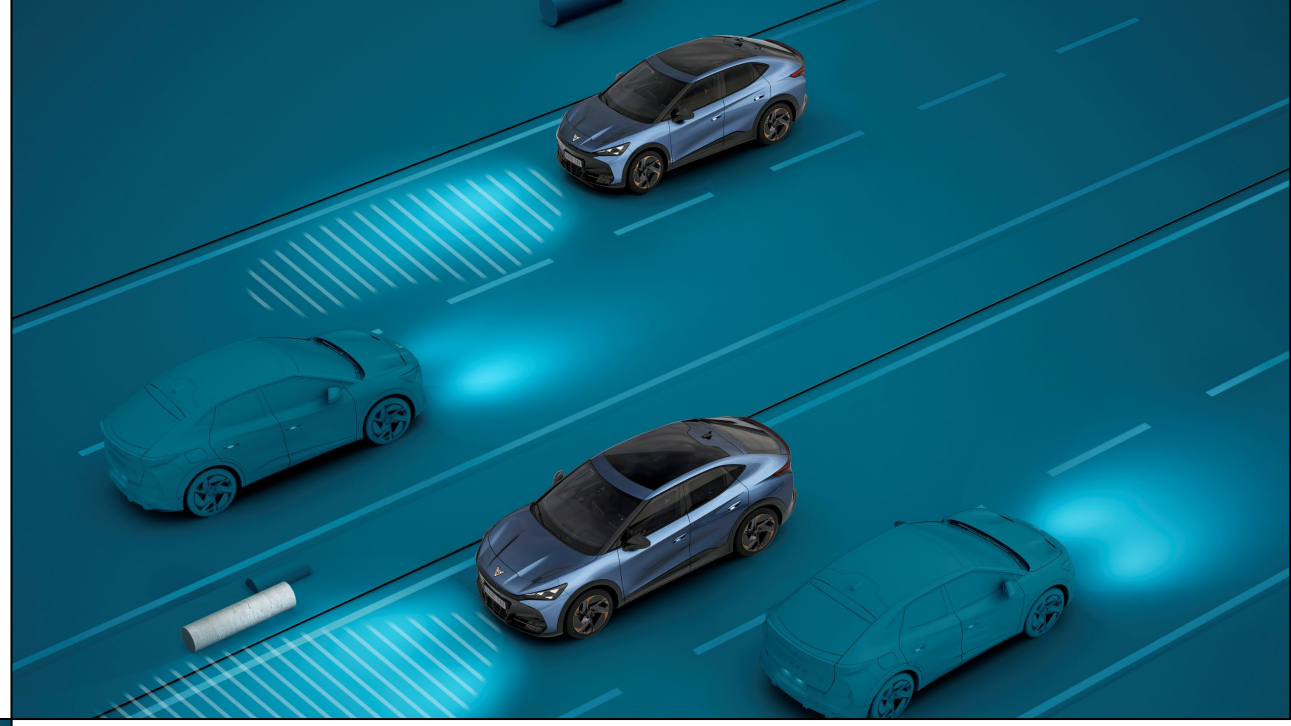

TECH & SAFETY

INCREDIBLY CRUISY

Tavascan features an advanced cruise control system which can follow the car in front while making minor speed corrections[11], plus engage travel assist to aid you in holding to the centre of the lane[11].

Prototype model shown for illustrative purposes only

LIGHT ASSIST

To avoid glaring oncoming drivers, Tavascan is equipped with our light assist automatic high beam system[11] that pro-actively dips the high beams in the presence of oncoming vehicles.

SIDE ASSIST

When changing lanes, side assist[11] monitors traffic in your blind spots to alert you of any potential hazards. Similar sensors will warn you of fast approaching vehicles when alighting from the vehicle.

Prototype model shown for illustrative purposes only

SUPPORT

Our services are crafted for your peace of mind.

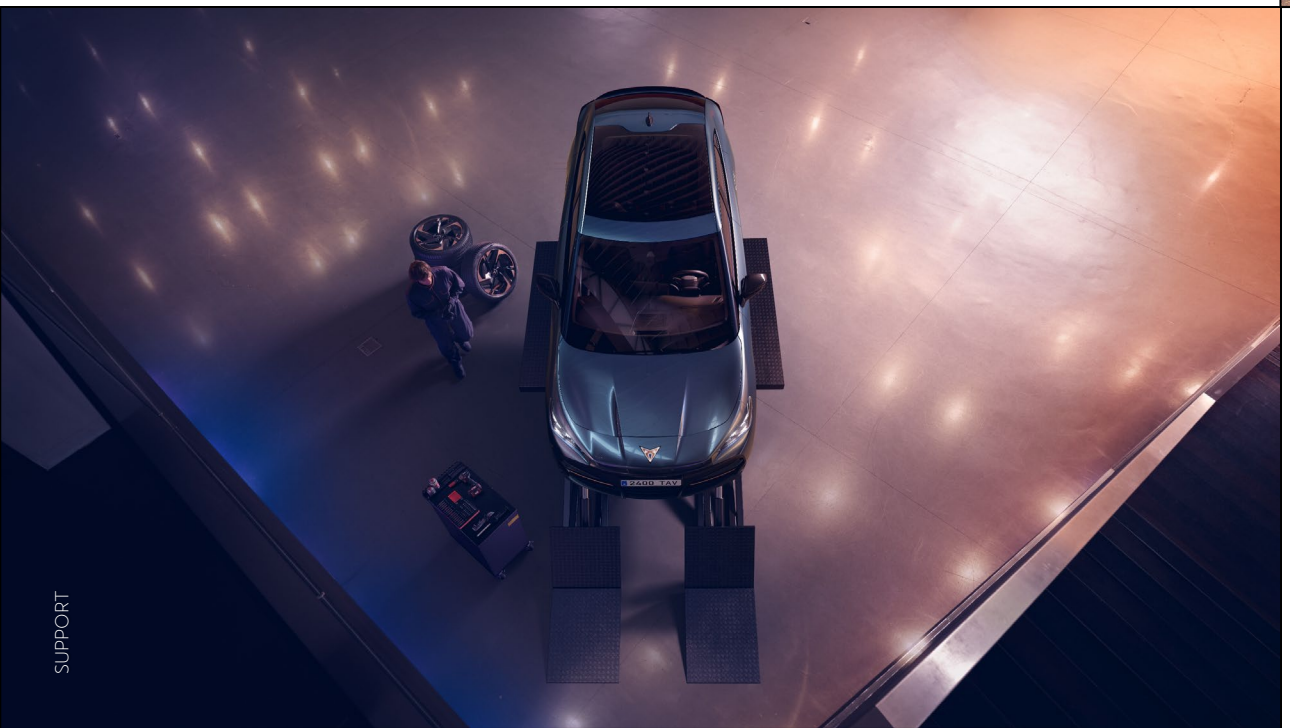

COMPREHENSIVE ASSURANCE

5-YEAR WARRANTY

We have every confidence in our CUPRA vehicles, and we want to share that confidence with you. That's why every CUPRA comes with a factory-backed 5-year unlimited kilometre warranty*.

For our BEV & PHEV electric vehicles, this additionally includes 8 years or 160,000km specifically for the EV battery*.

SUPPORT

5-YEAR ROADSIDE ASSISTANCE

Every new CUPRA vehicle comes with five years of CUPRA Roadside Assistance including 24-hour roadside support, emergency accommodation, car rental and towing*.
We'll help you get back on the road again – at any time of day.

Overseas Tavascan models shown in Tavascan Blue.
*Warranty and Roadside conditions and exclusions apply. Your rights under this warranty are provided in addition to, and in some cases overlap with, consumer guarantees under Australian Consumer Law and do not limit or replace them. See website for full details.

UPHOLSTERIES

TAVASCAN VZ WITH OPTIONAL EXTREME PACKAGE

The Tavascan VZ, when selected with the optional Extreme Package, provides an interior akin to its naming, with bolstered 'CUP Bucket' front seats inspired by CUPRA's roots in motorsport, and clad in Enceladus Grey leather appointments[7]. Similar finishes adorn the lower centre console finish and door armrests for a unified look.

TAVASCAN V, ENDURANCE & VZ

All Tavascan models are presented with a contrasting 'Dark Night' interior, with Deep Blue microfibre seat trim (with up to 50% recycled microfibre) plus matching door armrests and lower + upper centre console finish. Highly detailed copper perforations complete the look.

The reproduction process does not allow for exact reproduction of the exterior or the upholstery colours.
Please contact your CUPRA Agent for further information on colours and upholstery combinations. Overseas model shown

TECHNICAL

In the universe of the CUPRA Tavascan, technical mastery isn't just quantifiable; it's an ensemble of engineering feats. Within this domain, every nuance resonates with a commitment to superior performance, blending raw electric power with eco-conscious design.
